**Terms of Reference for
The Knowledge Sharing and Knowledge Services Committee (KSC)
INTOSAI's Strategic Plan Goal 3**

1. Introduction

The origin of the Knowledge Sharing and Knowledge Services Committee (KSC) can be traced to the 18th INTOSAI Congress held in Budapest in 2004, wherein a strategic goal was adopted under the Strategic plan 2005-2010 to encourage SAI cooperation, collaboration, and continuous improvement through knowledge sharing, including providing benchmarks, conducting best practice studies, and performing research on issues of mutual interest and concern. To achieve this strategic goal, KSC was constituted at the XIX INTOSAI Congress held in Mexico City, Mexico in November 2007.

Under the earlier strategic plans, KSC was entrusted with the important task of improving the professionalism of INTOSAI through improved knowledge sharing, learning, collaboration and innovation.. Since its creation, the KSC has been instrumental in dissemination of valuable organizational insights, avoiding duplication of effort and reducing the learning time in auditing new areas and adapting to changing environments. KSC through it's working groups and Task forces has developed 26 ISSAIs/INTOSAI GOVs since its inception. In addition numerous guidance, research papers and handbooks have been prepared by the Working Group/Task Forces of KSC.

In the 2016 INCOSAI, a new Working group on Big Data was created under KSC and the Task force on Procurement contract audit was accorded a working group status as Working Group on Public Procurement Audit, thereby increasing the number of working groups under KSC to Eleven.

2. Purpose

The Strategic Plan of INTOSAI 2017-22 described that Goal-3 Knowledge Sharing and Knowledge Services is to “encourage SAI cooperation, collaboration, and continuous improvement through knowledge development, knowledge services including:

- (1) Producing and revising INTOSAI products;
- (2) Providing benchmarks and operating a community portal; and
- (3) Conducting best practice studies and performing research on issues of mutual interest and concern”.

This Goal has also been designated as a hub for INTOSAI's efforts to share knowledge regarding SAIs' efforts to support and evaluate the Sustainable Development goals within the context of varied audit authority.

3. Mandate

As envisaged in the INTOSAI Strategic Plan 2017-22, KSC aims to support greater professionalism and continuous improvement of SAIs by pursuing the following strategic objectives:
